

Health care. Human care.

Quality Control Analyst (Ref: QCA0321)

Rafarm, achieving dynamic growth since its foundation (1974), is a Greek interest pharmaceutical industry of multinational orientation -with innovative medicines, branded generics and total quality services – recognizable by all stakeholders in the field of Health Care. At the forefront of Greek pharmaceutical companies continues to strengthen and build on its already important role as a serious and recognized player in the international market.

The role main accountabilities will be the following:

- Responsible for conducting raw materials, in process, finished product and stability testing according to standard operating procedures
- Perform equipment maintenance and calibrations as required
- Completes appropriate documentation supporting testing procedures, including data capture forms, equipment logbooks, and inventory forms
- Supports preparation of validation protocols, executes experiments, and provides data for validation reports
- Understand and comply with all company policies, safety procedures, and SOPs, including cGMPs and cGLPs.
- Performs sample analysis, method development and validation studies

Experience & Qualification Standards:

- BSc in chemistry, biochemistry or relevant scientific discipline
- Minimum of 2 years of relevant hands-on laboratory experience in the Biotechnology/Medical Device/Pharmaceutical manufacturing laboratory industry
- GLP / GMP oriented laboratory experience will be considered as a plus
- Proficient in the operation of basic laboratory instruments and at least two major ones such as HPLC and GC
- Working knowledge of experimental designs and clinical manufacturing, validation, and report writing for regulatory submissions
- Highly detail-oriented and organized, able to work both independently and as a team player with a positive attitude
- Excellent observation skills and problem solving abilities
- Ability to follow analytical procedures and protocols

The Company offers: Competitive remuneration package along with challenging career development opportunities within an innovation orientated organization
