

We go beyond the obvious
and make a positive impact on people's lives

QC Utilities Team Leader (Ref: QCUL0424)

RAFARM is an innovation-driven, dynamically growing pharmaceutical company and a well-established European manufacturer with an outward-looking orientation that invests 13% of net turnover in Research and Development. We introduce high technology in our state-of-the-art sterile manufacturing plant and create new production lines with cutting-edge technology and robotic equipment. RAFARM is a place where our people evolve and are full of passion and interests. We are a dynamic team that empowers talent, embraces diversity and accelerates development.

The role main accountabilities will be the following:

- Follow-up, review, and trending of the analyses results concerning the auxiliary utilities (water, gases, steam)
- Compiling and issuance of Certificates of Analysis
- Scheduling any activity of the utilities team, including analysts' day to day tasks and follow-up the Validation Master Plan of the Laboratory
- Handling of QC retained samples inventory (organize, receipt, annual control)
- Release of critical consumables
- Completing and maintaining physico-chemical analysis reports and laboratory instrument logbooks
- Maintain and ensure constant training and compliance of the Team according to Company's procedures

Experience & Qualification Standards:

- University degree in Chemistry, Pharmacy, Biology or other health related discipline
- 3 years of relevant hands-on laboratory experience
- Ability to follow analytical procedures and protocols
- Verbal and written English communication skills
- Good knowledge of MS office applications
- Highly detail-oriented and organized, able to work both independently and as a team player with a positive attitude

Benefits

- Competitive Compensation
- Private Health Insurance
- Career Development Opportunities
- Work-Life Balance
- Innovative Work Environment
- Community Engagement

Why Join Us
